ABOUT US

MiniArt Models was established in 2001 and originally the company was based in Simferopol, Ukraine.

After two years of initial research and development, MiniArt Models released its first model in 2003 - **35002 SOVIET INFANTRY ON THE MARCH**. In the same year, the company brought fourteen model kits to market and began distribution of the models through established hobby distribution companies. In the same year the company also introduced its first four vacuum-formed buildings in what would become a new series – **Buildings, Accessories and Dioramas**.

In 2004, were launched another new model series; **HISTORICAL FIGURES SERIES (1/16 scale)** and **HISTORICAL MINIATURES SERIES (1/72 scale)**.

In 2005, MiniArt Models presented its kits for the first time at the International Toy Fair at Nuremburg and since then continues to showcase the products there.

In 2006 MiniArt Models released its first kit of military vehicle. It was Soviet tank 35025 T-70 M Early Production SOVIET LIGHT TANK w/CREW. Since then MiniArt Models started to launch various models of AFV, tanks, guns, vehicles, cars etc. During the years MiniArt Models has increased the level of quality and continues the improvement.

In 2011 a new slogan was created: “MiniArt, where innovation is always at work”. This slogan was first presented in MiniArt’s Catalogue of 2011 with the following preamble: “At MiniArt, our goal is to create models that will feed your hunger for original concepts. At the same time, we strive to be at the forefront of moulding technology. The results are kits that showcase world-class quality and uncompromising creativity. Join us at MiniArt, where innovation is always at work”.

In 2012 the slogan was converted to a shorter variant: “MiniArt Models. Innovation is everything”. A new and additional product line was launched in the summer of 2012 – **multi-coloured kits – models of buildings in 1/72 scale**. This series of kits features plastic in six different colours and the buildings can be assembled unpainted for use by railway modellers, although in practice most are painted and weathered for a more realistic finish.

In 2013 was released a new series in **1/35 scale Miniatures Series – Civilian Subjects**. The first item in this series was **38001 “European Tram”**. The very first model kit of a tram to be reproduced in plastic.

In 2014 the company together with all manufacturing facilities was relocated to Kiev, the capital city of Ukraine.

MiniArt Models continues to expand the range not only to existing series but also in developing new lines. In 2016 is planned to launch 2 more series:

- **WWI Military Miniatures**
- **Military Miniatures**

The current MiniArt Models range consists of some 300 kits.
REWARDS

“Best figures set in 1/35 scale” 2006 for 35027 Soviet Officers At Field Briefing - MHobby. Russia.

“Best AFV in 1/35 scale” 2007 for our 35043 Soviet Naval Troops. MHobby. Russia.

“Best AFV in 1/35 scale” 2010 for our 35092 Valentine Mk. IV - MHobby. Russia.

“Best AFV in 1/35 scale” 2012 for our 35127 GAZ-AAA - MHobby. Russia.

QUALITY BEYOND THE ORDINARY
IN CREATING TANKS, VEHICLES AND ARTILLERY,
we cut no corners. No facet is too small for special attention. Photoetched parts are used liberally to highlight details rarely exposed in other kits. Accessories like ammo boxes, artillery shells, oil drums, even small pails, are perfect.
ONLY LIFE’S FIGURES ARE MORE CONVINCING
AND WHILE SELECTION IS CRUCIAL TO YOUR ENJOYMENT,
quality is also an integral part of every MiniArt kit. We’ve raised the art of figure-making to a new level. We begin with sketches that craft a framework for poses and positions. Then, as part of the molding process, our figures are sculptured by an artisan adept at capturing each facial crease and nuanced detail. These figures are so real you can almost feel their emotion. Marching, resting, working and battle poses are natural and in synch with anatomical accuracy. Only reality’s figures are more believable.

OUR “POST WAR” AND „MODERN“ PERIODS SERIES OF KITS ARE DESIGNED TO BRING YOU ALL OF MOST EXCITING INNOVATIONS and technological advances since WWII. From 1945 to the present day the world has changed and conflict has come and gone. This series of kits will include modern tanks, cars, trucks, AFV’s and figures beautifully rendered and with scrupulous attention to detail.

The aim here is to provide accurate, well engineered and excellently presented kits that will fascinate, excite and engage so as to immerse the modeller into the subject.

ADVANCED TECHNIQUES DELIVER DETAIL AND CONVENIENCE
In this ORIGINAL SERIES, the art of injection molding and the latest vacuum forming techniques merge to add a NEW DIMENSION to your hobby.

Vacuum formed roofs and walls, mesh with highly detailed injection molded windows, doors, stairs, gates and other architectural components to create EXACTING REPLICAS.

In contrast to ceramic and resin, plastic is more affordable, lightweight, and stronger.

DIORAMAS

A NEW DIMENSION IN MILITARY MODELING...

DIORAMA KITS
NEVER BEFORE AVAILABLE IN PLASTIC, our Diorama Series breaks new ground in modeling innovation. Each kit contains buildings, accessories and matching, textured bases to form a complete diorama.

The creative flourishes are everywhere, like advertising on a street kiosk, period lampposts, directing signs and more. The realism is exceptional.

To complete the dioramas, some kits contain military figures in varied poses, including marching, resting and fighting. Their weapons, armored vehicles and accessories are included.

MiniArt introduces 1:16 scale historical figures... a collection never before available in plastic. The series covers periods from classical antiquity through medieval times, and up through the 20th century. Warriors from these tumultuous eras include foot soldiers from the Middle Ages, Praetorian Guardsmen from the 2nd century, Athenian and Spartan Hoplites (heavily armed infantry soldiers) from the 5th century B.C., 15th century knights in armor, and Napoleonic grenadiers as well as early 20th century Russian Cuirassiers, and more. Historically perfect, each figure has been meticulously researched as to armor, weapons, shields and dress of the times. From the facial expressions through the multitude of varied poses, each figure is anatomically correct. The directions will lead you through the finishing touch of painting, which will bring these warriors to life.

HISTORICAL MINIATURES

SCALE 1:72
Modelers, gamers and hobbyists have never had the opportunity to work with these choices of subject matter in these chosen timeframes.

MiniArt has created, in plastic, a series of historically accurate stone fortress, castle, soldiers, weapons and accessories from the 4th through the 15th century and beyond.

The range of **MULTICOLORED KITS** creates an opportunity to build up them in both ways: painted and unpainted.
